PROFESSIONAL SUMMARY

I started my journey in administration, hospitality, and small business experience, and later returned to the tech field in Portugal. Since 2023, I've been studying programming and I currently work as an IT Supervisor. Now I'm looking to move my career toward software development, combining my management experience with my programming skills to contribute to new projects in a solid and constantly evolving way..

- **Proficient** in NodeJS, React, TypeScript, and backend Java.
- **Knowledge** in jQuery, C language, API requests and PostgreSQL
