PROFESSIONAL SUMMARY

Full Stack / Frontend Developer and IT Analyst with international experience supporting critical Data Center operations (Portugal). Currently studying Information Systems, I combine a solid practical background in Windows, Linux, ITSM, and incident resolution with web development skills using the JavaScript ecosystem (NodeJS, React, TypeScript, and SQL databases) to build efficient and scalable applications.

SKILLS

- **Frontend:** HTML, CSS, Sass, React, Vue, TypeScript, Redux, jQuery, and Bootstrap.
- **Backend & Databases:** NodeJS, API REST, PostgreSQL, C Language, and Java concepts.
- **Build and Automation Tools:** Gulp, Grunt, Parcel
- **Test:** E2E Testing with Cypress, Jest and React Testing Library.
- **Best Practices and Clean Code:**, Object-Oriented Programming (OOP), Prettier, ESLint, BEM, and SMACSS methodologies.
- **Version Control:** Git and GitHub.
- **Design:** Figma.

PROFESSIONAL EXPERIENCE

Mozantech / MEO Portugal

Nov/2023 - Fev/2026

IT Analyst / NOC Operations Supervisor

- Proactive monitoring of Data Center infrastructure (servers, switches, routers, and applications), ensuring service availability.
- Troubleshooting Linux and Windows servers (physical and virtual) using CLI and PowerShell to validate alarms and remove false positives.
- Management and escalation of critical incidents based on ITSM, applying contingency procedures and contacting specialist teams.
- Access control to servers and incident documentation, aiming to reduce MTTR, meet SLA, and update the knowledge base.
- Interim team leadership (covering vacations), responsible for managing schedules, distributing tasks, and reporting indicators to the PMO and the final client.

MrCaneca (Small Business Owner)

Jan/2021 - Jan/2022

Designer | Sales

- Creation of visual identity and product design using graphic tools (Figma/vectorization), focusing on visual experience and specific customer requirements.
- Management of the e-commerce and digital sales channels, tracking conversion metrics, paid ads, and digital marketing campaigns.
- Financial and operational management of the business, using spreadsheets (Excel) for cash flow control, pricing, materials, and delivery logistics.
- End-to-end customer service, ensuring loyalty through clear communication and fast problem resolution.

Casa da Moeda do Brasil

Jan/2015 - Jun/2016

Administrative Assistant Intern

- Document management and administrative process flow, using Microsoft Office (Excel, Word) to track internal procedures and comply with rules.
- Organization, control, and digitization of files, ensuring information security and quick access to administrative data.
- Support in inventory control of production and supplies, preparing reports to assist in purchasing and material planning.

LANGUAGES

- English: B1 (Intermediate)
- Portuguese: Native
